

FUNMILUYI DANIEL

FRONTEND DEVELOPER

PERSONAL PROFILE:

I am a goal-oriented frontend developer with an eye for detail. From the moment I displayed my first "Hello World" on my PC browser, I knew I was hooked into the world of Front-end development. But frontend development has never been "just a job" for me, it has offered an engaging challenge to continually learn and improve my skills in creating beautiful websites and applications. What started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

PROFESSIONAL SKILLS:

- Content Creation
- Team Management
- Risk Management
- Cost Control
- Creative and Critical Thinking
